

## Baldwin County Schools Office of Assessment and Accountability

110 N. ABC Street Milledgeville, GA 31061  
(478) 453-4176 Office Number

*Dr. Noris Price, Superintendent*

August 4, 2021

Baldwin County School District carries the vision of empowering students to achieve their maximum potential for lifelong success. The use of multiple assessments serve as a facilitator for students who will graduate college and career ready and become contributing members of our local and global communities. Assessment is a part of the curriculum and instruction component that provides all stakeholders pertinent information on the district's overall performance and accountability towards mastery and readiness for all students.

Baldwin County Schools implements a balanced assessment system with the frequent use of progress monitoring and the implementation of professional learning to support the use of data for the improvement of academic achievement for students. BSCD takes the initiative to communicate to all stakeholders, parents and the community the importance of partnership to ensure that as ONE team we are ALL accountable for the success of our students.

The Office of Assessment and Accountability focuses on the areas of:

- \* Coordinating and overseeing all state, federal and local assessments for the school and district level.*
- \* Providing professional learning for administrators, teachers, staff and parents on the requirements of the state assessment program and the state and federal accountability.*
- \* Assisting administrators, teachers, administrators, staff and parents on the analyzing and interpretation of data relating to student achievement and discipline.*
- \* Directing and disseminating information to the district about program requirements for accountability at the state and federal level.*
- \* Supporting schools in the development and implementation of school improvement plans, balanced scorecard process and other strategic plans.*
- \* Overseeing the requirements and the compliance to the continuous improvement processes for Cognia (AdvancED/SAC CASI) Standards relating to the district's accreditation status.*

The mission of the Baldwin County School District, in collaboration with families and community, is to educate students who will graduate college and career ready and become contributing members of our local and global communities.
